SAFETY YOU CAN COUNT ON BUILT RIGHT IN

The 2020 Mirage is built on Mitsubishi Motors' Reinforced Impact Safety Evolution (RISE) platform, featuring high tensile strength steel and crumple zones that absorb and disperse energy during high-impact collisions. Strategic reinforcements at key body points complement its side-impact door beams, giving your Mirage a stable, secure base that's worth its weight in safety.

You'll also appreciate Mirage's advanced, 7-airbag safety engineering with dual front airbags, front seat-mounted side-impact airbags, side-impact curtain airbags (front and rear) and a driver's knee airbag.

Plus, its standard rearview camera automatically activates when you shift into reverse, showing you a wide-angle view of the area behind the vehicle, and making it easier to safely navigate tight parking spots or when backing up in any situation.
